

# Cyprus Science Festival

December 9<sup>th</sup>

UClan University

9.00 – 13.00	<p>Pre-service teachers from our classes that have participated in Engage training will prepare activities to engage students with SSI topics. The activities are based on the activities that are available in the Engage materials on-line. We will also have posters explaining the ideas of Engage, and computers that the teachers will use to see the Engage materials.</p> <p>The Cyprus Science Festival is organized by the Science Teacher Association and the local universities in order to promote science learning. We are participating in this as a way to promote Engage to the students.</p>
